

PRECISION BORESCOPIES

Precision Shooting

With a Hawkeye® Borescope you can inspect chambers, leads, lands and grooves, gas ports, and crowns from muzzle to breech in rifles and pistols. Our design allows shooters to inspect straight ahead (0 DOV), or sideways (90 DOV).

The Hawkeye® Precision Slim Rigid Borescope is the most common size for barrel inspection. The outer diameter when looking straight is **.165" (4.2mm)** and **.188" (4.8mm)** with the side view mirror.

SHOT Kits

Item Number	Length	Diameter	Price
HS07-SHOT-KIT	7"	.165" (0 DOV) .188" (90 DOV)	\$795
HS17-SHOT-KIT	17"	.165" (0 DOV) .188" (90 DOV)	\$895
HS22-SHOT-KIT	22"	.165" (0 DOV) .188" (90 DOV)	\$1,495

DOV = Direction of View

SHOT Kits Include:

Hawkeye® Precision Borescope, Hawkeye® Mirror Tube, MiniMag Light Source, Cleaning Kit and Rugged Carrying Case
Our best selling SHOT include everything needed to see potential defects or abnormalities in your new or used firearms.

Angled Eyepiece Kits

Item Number	Length	Diameter	Price
HS17-SHOT-AEP	17"	.165" (0 DOV) .188" (90 DOV)	\$1,145
HS22-AHOT-AEP	22"	.165" (0 DOV) .188" (90 DOV)	\$1,745

Angled Eyepiece Kits Include:

Hawkeye® Precision Borescope, Hawkeye® Mirror Tube, MiniMag Light Source, Angled Eyepiece, Cleaning Kit and Rugged Carrying Case
The angled eyepiece facilitates the viewing in a bolt action rifle that is mounted in a stock.

SuperNOVA Kits

Item Number	Length	Diameter	Price
HS17-SHOT-NVK	17"	.165" (0 DOV) .188" (90 DOV)	\$1,095
HS22-SHOT-NVK	22"	.165" (0 DOV) .188" (90 DOV)	\$1,695

SuperNOVA Kits Include:

Hawkeye® Precision Borescope, Hawkeye® Mirror Tube, SuperNOVA-LED Light Source, Cleaning Kit and Rugged Carrying Case
When more light is needed the SuperNOVA-LED rechargeable high powered light source is the best solution.

Precision Shooting

Gunsmith Kit

Item Number	Length	Diameter	Price
GUNSMITH-KIT	7" and 17"	.165" (0 DOV) .188" (90 DOV)	\$1,595

Gunsmith Kits Include:

Hawkeye® Precision Borescope(s), Hawkeye® Mirror Tube(s), MiniMag Light Source, Cleaning Kit and Rugged Carrying Case

The gunsmith kit includes both the 7" and 17" adjustable focus borescopes to give you the best viewing option for your inspection.

AFB Kits

Item Number	Length	Diameter	Price
HS07-SHOT-AFB	7"	.165" (0 DOV) .188" (90 DOV)	\$695
HS17-SHOT-AFB	17"	.165" (0 DOV) .188" (90 DOV)	\$745
HS22-SHOT-AFB	22"	.165" (0 DOV) .188" (90 DOV)	\$1,295
PSS17-SHOT-AFB	17"	.110" (0 DOV) .128" (90 DOV)	\$1,395
GUNSMITH-AFB	7" and 17"	.165" (0 DOV) .188" (90 DOV)	\$1,440

AFB Kits Include:

Hawkeye® Precision Borescope(s), Hawkeye® Mirror Tube(s), MiniMag Light Source, and Cleaning Kit.

The AFB kits are a great lower cost alternative for those who want the same Hawkeye quality but do not need a carrying case.

What do you need to connect your Hawkeye Borescope to a computer or monitor?

To add video capability to any of our Hawkeye Precision Borescopes you will need the Luxxor Portable Camera (LPC). To view the image on your computer, as well as take photos and videos, you will also need the Video Toolbox Capture Software (VC-USB2). If image capture is not needed, you can output to our 22" HD Monitor (HVM-22).

Video Accessories

Item Number	Description	Price
LPC	The Luxxor® Portable Camera easily attaches to any Hawkeye® Borescope. The image can be viewed on a monitor or computer (VC-USB2). We highly recommend an upgraded light source when adapting to video.	\$1,095
VU-USB2	Image capture software and cable to convert camera (sold separately) to PC/Laptop	\$295
HVM-22	22" HD Video Monitor	\$295
