Product Spotlight

One HD Videoscope, Two Cameras

The HD Q2 Dual View Video Borescope offers the benefit of 2 Videoscopes for the price of one. With both 0 degree and 90 degree cameras, users can change between a forward view and a side view with the press of a button. The Hawkeye® Q2 Dual View is perfect for engine and weld inspections as well as automotive and aerospace parts.

Hi-Resolution Under 1mm OD

At only .95mm in diameter the Hawkeye® Micro Q2 Video Borescope provides crisp, clear images. The Micro Q2 Video Borescope has 8x better resolution than a fiberoptic borescope while having the ability to capture still images and videos. The Micro Q2 is perfect for inspecting small diameter medical devices, aerospace and automotive parts.

Video Spotlight

Customers inspecting small parts have been waiting decades for a high resolution video borescope solution. The Micro Q2 Video Borescopes innovative technology finally allows users inspecting small parts to use video borescope technology. The full screen high resolution image is 8x the resolution of the 1mm Pro MicroFlex fiberscope, with a more compact and portable design.

The Micro Q2 is offered in a .95mm and lengths up to 2 meters long. The Micro Q2 incorporates a tight bend radius, 4-hour integrated battery, interchangeable insertion tubes, and integrated LED.
